If you're short on time and sick of the same old boring cardio routine and want to kick your fat loss into high gear by working out less and...heaven forbid...actually have some fun...then you want to read this new book.

Here's the deal:

The "old school" of cardio has you doing grinding, grueling long-distance runs or bike rides for hours and hours each week to burn a little bit of fat and, unfortunately, eat away muscle too (giving you that "skinny and flabby" look).

Fortunately, the science of exercise has progressed and the "new school" of cardio has arrived, and it's a dream come true.

If you follow the rules of the "new school" of cardio, you can have a lean, toned body by working out less than 20 minutes per day (you can even get in an intense, fat-burning workout in 5 minutes if you know what you're doing!).

In this book, you're going to learn how to spend less time exercising to burn more fat and build muscle, and you won't have to ever step foot in a gym if you don't want to. And it's a fast read--no fluff here.

Here are some of the secrets you'll learn inside:

And more... This book is for people that hate doing cardio and want to squeeze every ounce of fat loss possible out of their workouts. Forget pounding the pavement for hours and hours every week just to lose a little fat and muscle. Follow the methods taught in this book and you can torch fat in a fraction of the time and get tight, toned muscles (and you might actually have some fun too!). **SPECIAL BONUS FOR READERS!** With this book you'll also get a free 23-page bonus report from the author called "12 Health & Fitness Mistakes You Don't Know You're Making."
