Through Therapeutic Intervention with Poor, Unorganized Families, you will receive a plethora of ideas which consist of multiple intervention techniques and alternatives for intervention, including:

- learning to organize institutions in the community to participate in getting families in extreme distress out of their long and perpetual predicament
 - teaching you how cooperation between various government organizations, public and private, can be solicited for the welfare of these families
 - offering you an anthro-psycho-social model of intervention that you will find effective in your own practice
 - examining case studies so you can see how the new model works in real-life settings
- Therapeutic Intervention with Poor, Unorganized Families is unique because not only does it offer you help with supervision and training aspects, but because it also ends with a qualitative and quantitative research evaluation of this new model.
