This book contains two short stories. The first story teaches children how to tell caregivers about their day. The second story teaches children to cope with change and transitions.

Each story is presented with delightful illustrations featuring a child who navigates a world that is sometimes confusing or intimidating. As he learns new social and coping skills, he gains a better understanding of how to react to or behave in specific situations.

A perfect addition to the book is the section of comprehension questions at the end of each story. This ingenious idea reinforces learning and helps the reader thoroughly understand what's expected. This book also has a track record of success in helping children with autism and those with social delays.
