Writing for advanced ESL (English as Second Language) learners. An exploration of the Grammar, Spelling, Usage, and Method that will give them information, skills, and confidence. The book contains extensive cross referencing among related topics. Most of the chapters have exercises and answers.

This book by Professor Frank Gerace presents useful information about grammar and usage needed by new speakers and writers of English. It is aimed at and dedicated to those people who have learned English as a second language. It is for those persons who have never written in English and who wish to gain the confidence to start. It is also intended for those others who already write a little and who want to improve their writing and bring it to a higher level.

Readers will gain confidence by learning some essential elements of grammar, style, spelling, and method. This is not a grammar book, or a style manual, or a list of misspelled words, or a collection of tips and tricks about how-to-write. It is a little of all these things; it covers the essential parts of writing in a simple uncomplicated way. All the book's content is cross referenced with other sections. An outstanding feature is the many exercises for the reader to put the learning in practice, with the answers to the exercises in the back of the book. The solid foundation will help the serious readers find ideas on how to get started on writing what they have to write.
