Lexi-Comp Drug Information Handbook for Oncology

Lexi-Comp Drug Information Handbook for Oncology

The Drug Information Handbook for Oncology is designed to meet the needs of all oncology professionals involved in prescribing, preparing, and administering therapy. This edition contains 270 drug monographs and over 330 chemotherapy regimens, cross-referenced and organized in a concise, uniform format. Valuable supporting information is included in the Appendix and Special Topics sections and the Pharmacologic Category Index. The content of the Drug Information Handbook for Oncology is presented in tabbed sections and organized like a dictionary for ease-of-use. Medications are located by generic name, with each monograph including up to 42 unique fields of information. The Chemotherapy Regimens section provides a comprehensive presentation of cancer chemotherapy regimens, listed alphabetically by regimen name (acronym). An index also lists regimens by indication. The Special Topics section covers important cancer-related issues such as pain management, bone marrow transplantation, managing infections, safe handling of hazardous drugs, and more.
