Teenagers in today's world are caught in the middle of an all-out war for their souls. Their parents are losing, mainly because they are not well prepared for battle. No one is in a better position to protect these children than their parents, but they must know the weapons of the enemy before they can successfully win the battle.

*Sex, Lies, and High School* encourages parents to persevere in fighting for their children's souls by informing parents about the influences that are pressing on their children (such as the prom, spring break, media icons, sex education, clothing, STDs, and dating).

This book also shows them how to spot signs of trouble in their children, educating them in how to discuss these things openly with their children, and offering alternatives to the negative and harmful influences of our culture.
