Recurrent Miscarriage And Pre-eclampsia: The Roles Played By The Immune System And Antioxidants Rhoda Wilson

This book examines the role of antioxidants and of the immune system in the pathogenesis of pre-eclampsia and recurrent miscarriage. Whilst many papers have discussed the role of antioxidants in pre-eclampsia and, that of the immune system, hitherto publication has not considered the two simultaneously. The role of the immune system in recurrent miscarriage has been the subject of many papers but whether antioxidants play a part in miscarriage has been less well studied. In many ways the problems encountered in the two disorders are similar, and this book brings them together.
