As a scholar, I exactly feel bored with reading. If their teacher requested them to go to the library or even make a summary for some publication, they are complaining. Just tiny students that have reading's spirit or real leisure activity. They just do what the teacher wants, like asked to the library. They go there generally but nothing reading critically. Any students feel that examining is not important, boring in addition to can't see colorful photographs on there. Yeah, it is to become complicated. Books are very important for you personally.
