kNewspapers: A Novel About Love and Citizen Journalism K. Paul Mallasch

## Sex, Drugs and Journalism Studies

Paul Malinski transforms into kpaul as he journeys through the wilderness and the universe when banished from corporate media. Along the way, he learns a lot about **journalism, greed, love, black holes, Occupy Wall Street, robots and automation, poetry, selflessness, mental illness** and *much more*. Perhaps most important, he learns about himself and that one person alone can't do everything.

In the background and at the very edges, this novel describes the continued decline of big media and the rise of "citizen journalism" as seen through the eyes of a man who believes that Journalism is much too important to leave to large corporations. This book is for journalists, ex-journalists, and anyone who wishes there was a better system of news dissemination in this nation and around the world.

Oh, and there's a lot of poetry and an "It's Complicated" love story. (Read the comments for some hints...)

*This is an autobiographical novel, a work of fiction.*
