**Pattern Recognition & Matlab Intro** Sergios Theodoridis, Konstantinos Koutroumbas

This specially priced set includes a copy of Theodoridis/Koutroumbas, **Pattern Recognition 4e** and Theodoridis/Pikrakis/Koutroumbas/Cavouras, **Introduction to Pattern Recognition: A Matlab Approach**.

The main text provides breadth and depth of coverage of pattern recognition theory and application, including modern topics like non-linear dimensionality reduction techniques, relevance feedback, semi-supervised learning, spectral clustering, and combining clustering algorithms. Together with worked examples, exercises, and Matlab applications it provides the most comprehensive coverage currently available.

The accompanying manual includes MATLAB code of the most common methods and algorithms in the book, together with a descriptive summary and solved problems, and including real-life data sets in imaging and audio recognition.

### **From reader reviews:**

#### **Anthony Edwards:**

Do you have favorite book? If you have, what is your favorite's book? Guide is very important thing for us to learn everything in the world. Each e-book has different aim or maybe goal; it means that publication has different type. Some people feel enjoy to spend their a chance to read a book. They are reading whatever they acquire because their hobby will be reading a book. How about the person who don't like examining a book? Sometime, person feel need book when they found difficult problem or maybe exercise. Well, probably you should have this Pattern Recognition & Matlab Intro.

#### **Doris Griffin:**

The book Pattern Recognition & Matlab Intro can give more knowledge and information about everything you want. So just why must we leave the good thing like a book Pattern Recognition & Matlab Intro? Wide variety you have a different opinion about guide. But one aim that will book can give many information for us. It is absolutely suitable. Right now, try to closer with your book. Knowledge or facts that you take for that, you are able to give for each other; you may share all of these. Book Pattern Recognition & Matlab Intro has simple shape nevertheless, you know: it has great and big function for you. You can look the enormous world by open and read a book. So it is very wonderful.

#### **Phillip Herzog:**

Reading can called thoughts hangout, why? Because when you find yourself reading a book particularly book entitled Pattern Recognition & Matlab Intro your mind will drift away trough every dimension, wandering in every single aspect that maybe unknown for but surely will end up your mind friends. Imaging every single word written in a publication then become one web form conclusion and explanation in which maybe you never get before. The Pattern Recognition & Matlab Intro giving you one more experience more than blown away your thoughts but also giving you useful details for your better life within this era. So now let us explain to you the relaxing pattern the following is your body and mind will be pleased when you are finished examining it, like winning a. Do you want to try this extraordinary spending spare time activity?

#### **Kimberly Mason:**

Reading a book being new life style in this 12 months; every people loves to read a book. When you study a book you can get a large amount of benefit. When you read books, you can improve your knowledge, mainly because book has a lot of information upon it. The information that you will get depend on what types of book that you have read. In order to get information about your study, you can read education books, but if you act like you want to entertain yourself read a fiction books, such us novel, comics, and also soon. The Pattern Recognition & Matlab Intro will give you new experience in studying a book.
