The Chill

Ross Macdonald

The Chill Ross Macdonald

Private detective Lew Archer has better things to do than take on an investigation for Alex Kincaid, a young man claiming that his new bride, Dolly, has gone missing. Snapped by a hotel photographer on the day of their wedding, the beautiful girl vanished only hours after and Alex has heard nothing since. But when Archer begins digging, he finds evidence that links Dolly to brutal murders that span two decades, and a terrible secret. In this byzantine and compelling tale, Ross Macdonald explores the darkest experiences that can bind a family together - and tear it apart. Ross Macdonald's "Lew Archer" mysteries rewrote the conventions of the detective novel with their credible, humane hero, and with Macdonald's insight and moral complexity won new literary respectability for the hardboiled genre previously pioneered by Dashiell Hammett and Raymond Chandler. They have also received praise from such celebrated writers as William Goldman, Jonathan Kellerman, Eudora Welty and Elmore Leonard.
