Making Sense: Teaching and Learning Mathematics with Understanding Thomas P Carpenter, Elizabeth Fennema, Karen Fuson, James Hiebert, Hanlie Murray, Diane Wearne

The key to effective math learning lies not in the regurgitation of isolated facts but in the ablility to reason with and use what is learned - in understanding the concepts. But what does it mean to design a classroom so that understanding is the primary objective? What would a system of instruction look like if we took seriously the goal of helping all students understand mathematics?

In this ground-breaking book, James Hiebert and his colleagues arm teachers with the best current research-based ideas for designing - and defending - classrooms that support students' mathematical understanding. It is based on the authors' work in four separate research programs, all of which investigated the effects of specific instructional approaches. Out of their ongoing discussions emerged a striking consensus about what features are essential and what features are optional, which they share in this book. They also provide glimpses into their individual projects and into the classrooms from which they have drawn many of their ideas.

By describing the essential features of classrooms that support students' mathematical understanding and by offering pictures of several classrooms that exhibit these features, *Making Sense* provides a valuable framework within which elementary teachers can reflect on their own practice and think again about what it means to teach for understanding.

From reader reviews:

Garland Thorpe:

Here thing why this specific Making Sense: Teaching and Learning Mathematics with Understanding are different and trusted to be yours. First of all examining a book is good nevertheless it depends in the content of it which is the content is as yummy as food or not. Making Sense: Teaching and Learning Mathematics with Understanding giving you information deeper and different ways, you can find any publication out there but there is no e-book that similar with Making Sense: Teaching and Learning Mathematics with Understanding. It gives you thrill studying journey, its open up your own personal eyes about the thing this happened in the world which is probably can be happened around you. It is possible to bring everywhere like in area, café, or even in your technique home by train. For anyone who is having difficulties in bringing the imprinted book maybe the form of Making Sense: Teaching and Learning Mathematics with Understanding in e-book can be your substitute.

Jerry Montgomery:

Nowadays reading books be than want or need but also turn into a life style. This reading routine give you lot of advantages. The advantages you got of course the knowledge even the information inside the book in which improve your knowledge and information. The info you get based on what kind of guide you read, if you want send more knowledge just go with education books but if you want truly feel happy read one using theme for entertaining for instance comic or novel. Often the Making Sense: Teaching and Learning Mathematics with Understanding is kind of guide which is giving the reader unstable experience.

Charlie Attwood:

People live in this new morning of lifestyle always attempt to and must have the time or they will get great deal of stress from both way of life and work. So, when we ask do people have free time, we will say absolutely indeed. People is human not just a robot. Then we question again, what kind of activity have you got when the spare time coming to you of course your answer will unlimited right. Then do you try this one, reading guides. It can be your alternative within spending your spare time, the book you have read is actually Making Sense: Teaching and Learning Mathematics with Understanding.

Mary Lamm:

What is your hobby? Have you heard that question when you got learners? We believe that that problem was given by teacher to the students. Many kinds of hobby, Every individual has different hobby. So you know that little person including reading or as reading become their hobby. You need to know that reading is very important and book as to be the point. Book is important thing to provide you knowledge, except your teacher or lecturer. You see good news or update regarding something by book. Numerous books that can you go onto be your object. One of them is actually Making Sense: Teaching and Learning Mathematics with

Understanding.
