**Sextant: A Young Man's Daring Sea Voyage and the Men Who Mapped the World's Oceans** David Barrie

In the tradition of Dava Sobel's *Longitude* comes this dramatic tale of invention and discovery—an eloquent elegy to one of the most important navigational instruments ever created, and to the daring mariners who used it to explore, conquer, and map the world.

Barrie takes readers straight to the helm of some of history's most important expeditions, interweaving these heroic tales with the account of his own transatlantic passage as a young man. A heady mix of adventure, science, mathematics, and derring-do, *Sextant* is infused with a sense of wonder and discovery. At once a dramatic history of maritime endeavor and a love letter to the sea and sky, it is timeless storytelling at its best.
