William was a happy little boy who lived with his parents in a green house with a lovely little garden, decorated with paper flowers. But one day everything changed. It was as if he'd been torn in two and turned into two different kids: one who went with his dad, and another who stayed with his mom.

Through the Eyes of a Child reminds us of the importance of communicating, and that after a change in a family's structure, a child can feel "whole" again and grow up happily . . . even though his parents have separated.
