From Chieftdom to State in Early Ireland D. Blair Gibson

This book tracks the development of social complexity in Ireland from the late prehistoric period on into the Middle Ages. Using a range of methods and techniques, particularly data from settlement patterns, Blair Gibson demonstrates how Ireland evolved from constellations of chieftdoms into a political entity bearing the characteristics of a rudimentary state. This book argues that early medieval Ireland's highly complex political systems should be viewed as amalgams of chieftdoms with democratic procedures for choosing leaders rather than kingdoms. Gibson explores how these chieftdom confederacies eventually transformed into recognizable states over a period of 1,400 years.
